

DR. MICHAEL S. MILLER

July 27, 2009

I have been trading stocks and commodities for over 20 years using different computerized trading systems. I have never dealt with anybody as knowledgeable and helpful as you. Your ability to program trading concepts into tradestation is truly amazing. Plus, you have supplied improvements to my trading concepts. Your value to my trading is ineffable.

You have also provided extremely valuable pre-recorded webinars at an extremely low cost. These webinars are an infinite source of valuable information and food for thought for new trading methods.

These pre-recorded webinars have triggered ideas so I have scheduled personalized webinars to learn more. I look forward to each and every training session as I feel I have truly found somebody who understands the pulse of the markets.

Your approach for applying multiple time frames into trading is the simplest and most powerful I have seen and I plan to learn more about this aspect of trading.

Thanks for sharing your trading knowledge,

Michael Miller
